

EELASTOMERS

Welcome to E Elastomers, your one-stop-shop for all things related to elastomers, polymers, rubber polymers, and plastics.

About us:

E Elastomers is a leading marketplace for elastomers, polymers, rubber polymers and plastics. We offer a wide range of products from various manufacturers and suppliers across the globe. Whether you need synthetic rubber, thermoplastic elastomers, silicone rubber, polyurethane or any other type of polymer material, we have it all at competitive prices and high quality standards.

Our Services:

With over 25 years of experience in the industry, we have established ourselves as a trusted and reliable partner for the marketplace. Our global reach ensures that we can cater to customers from all corners of the world.

We take pride in offering a diverse range of products and services that cater to different industries such as automotive, construction, railway, and more. Our products range from raw materials to finished products, and we ensure that each product meets our high-quality standards.

- Our platform offers an aggregated range of a wide array of products from various manufacturers across the globe.
- With our team of experienced polymer engineers who can provide consultation and guidance for your specific needs and applications, you are free to collaborate and fulfil your requirements.
- We believe that Innovation is the key; thus our in-house R&D facilities that ensures great product innovation, quality product development and smart reverse engineering.
- We conduct research and testing on new materials and technologies to keep up with the latest trends and demands in the industry.
- We have our own in-house logistics facilities that ensure faster delivery, handle all aspects of transportation, warehousing and customs clearance for your convenience.

Benefits of using E Elastomers:

At E Elastomers, we are committed to providing our customers with a range of benefits that make us stand out from other marketplaces. Some of the benefits of working with us include:

Verified Sellers:

Our platform only works with verified sellers, ensuring that you receive high-quality products from reliable sources. We carefully vet all of our suppliers and manufacturers, so you can be confident that you are working with reputable businesses.

EELASTOMERS

Regulated and Time Valid Spot Pricing:

Our platform offers regulated and time-valid spot pricing, ensuring that you get the best prices for your products. We work with our sellers to ensure that their prices are competitive and up-to-date, so you can make informed purchasing decisions.

Authenticity:

At E Elastomers, we believe in providing authentic products that meet the highest standards of quality. We work closely with our suppliers and manufacturers to ensure that their products meet our rigorous standards for authenticity and quality.

Accessible Platform:

Our platform is designed to make it easy for you to find the products you need and connect with suppliers and manufacturers. We offer a user-friendly interface that allows you to browse products, place orders, and connect with our team of polymer engineers for consultation whenever you need to.

High-quality products:

We have strict quality control measures in place to ensure that all our products meet our high-quality standards. This means that you can rely on our products to perform as expected and last longer.

Global reach:

Our global reach ensures that we can cater to customers from all corners of the world. This means that you can access our products and services, no matter where you are located.

24/7 Customer Support availability:

We understand that business never stops, and that's why our customer support executives are available 24/7 to serve your needs. Our team is always ready with enthusiasm to assist you with your queries and requirements.

Expert consultation:

Our team of polymer engineers is always ready to provide expert consultation to our customers. Whether you need advice on choosing the right product or need help with product design, we are here to help.

In-house logistics and R&D:

Our in-house logistics and R&D facilities ensure that we can provide you with fast and efficient delivery services. This means that you can expect timely delivery of your products.

Supporting "Make in India":

By promoting "Make in India" products, we support local businesses and manufacturers. This not only helps in boosting the Indian economy but also provides our customers with high-quality products at affordable prices.

EELASTOMERS

At E Elastomers, we are committed to providing a seamless and hassle-free experience for our customers. Whether you are a small business looking to source materials for a new product or a large manufacturer in need of bulk orders, we are here to help. Thank you for choosing E Elastomers, and we look forward to serving you soon!
