

Rayway Chem

Qingdao RAYWAY Chemical Co.,Ltd

WHO ARE WE

Gaomi Visen Trading Co., Ltd. was established in 2013. Its predecessor, Gaomi Fengxing Chemical Co., Ltd. was established in 2003. It is a comprehensive company focusing on technical services for rubber & latex chemical products and the production and trade of rubber additives. The company is located in Gaomi City, Shandong Province, which is close to Qingdao Port, and the import & export and domestic transportation are very convenient. It is one of the largest latex additive supply companies in north China, especially admired in the latex glove additive industry. Until 2022, the company currently occupies about 70% of the domestic market share of latex glove additives. Well-known cooperative customers include Xingyu Gloves (the largest leading enterprise of coated gloves in China), Dengsheng Safety (a well-known enterprise in Shandong Province), Nantong Henghui Gloves, and other domestic well-known labor protection gloves manufacturers. The company's stable suppliers include Wanhua Chemical Group, Hualu Hengsheng Group, Binhua Chemical, Luxi Chemical and other industry giants. As well as leading companies in professional fields such as Huaan Biology and Shanghai Shengguang Chemical. As well as leading companies in professional fields such as Huaan Biology and Shanghai Shengguang Chemical.

Qingdao Rayway Chemical Co., Ltd. invested in 2019, relying on Qingdao's excellent human resources and convenient foreign trade services, focuses on new product development and technological innovation. With its own professional advantages, the company provides customers with high-quality products, and does its best to guarantee for customers' manufacturing, and won the trust and support from clients. In order to meet the company's growing needs, we invested a rubber accelerator factory in Hebei in early 2020, specializing in the production of rubber accelerators ZDEC/ZDBC/ZDMC/ZMBT, with an annual output of 2000t. This acquisition greatly satisfies clients' needs, with providing high-quality products for domestic and foreign customers.

OFFICE BUILDING PERSPECTIVE

QUALITATIVE ENVIRONMENT

Our Service

Qingdao RAYWAY Chemical Co., Ltd., is a professional manufacturer and exporter of Rubber Chemical, which covers Rubber Accelerator, Rubber Antioxidant, Insoluble Sulfur, Thickener and other products related rubber industry.

RAYWAY maintains long-term cooperation with top experts and engineers in the rubber industry to provide customers with worry-saving and time-saving one-stop services. We are not only sell products to customers but also focus on outputting technologies and solutions to customers. Our target is to develop together with customers and help them get more profits as possible.

Achievements

According to the operating data statistics, our company sold 800 tons of rubber additives in 2020, 600 tons of rubber antioxidant, 10,000 tons of calcium nitrate, 700 tons of zinc oxide, 10,000 tons of glacial acetic acid, 8,000 tons of sodium hydroxide, 6,000 tons of nitric acid and so on. The sales volume exceeds 180 million yuan. Other main products are casein, calcium chloride, potassium hydroxide, baking soda and other chemical products. In recent years, on the basis of solid share of rubber latex industry, our company is actively committed to enriching our industrial chain, improving product lines, and focusing on solving customers' pain point. Our goal is to achieve excellence and become the most professional and leading company in the industry.

We are dedicated to enhancing client's product performance.

Business History

- In 2003, Gaomi Fengxing Chemical Co., Ltd. was established, located in Mizui Street, Gaomi, covering an area of 3 mu. The company specializes in latex fillers, food additives, latex additives, etc., and has Gaomi City hazardous chemical business license
- In 2012, after 6 years of development, company was limited by the scale, so a new company was planned to be established
- In 2013, Gaomi Visen Trading Co., Ltd was established and purchased 20 mu of land in Gaomi Development District to establish a domestic center
- In 2014, company obtained the storage license of dangerous chemicals and established storage tanks for glacial acetic acid, nitric acid and other dangerous liquids
- In 2019, to purchase 200 square meters of office space in 5A grade Tianxiang International office building, Tangdao Bay, Huangdao, West Coast New District, Qingdao, relying on the excellent foreign trading environment in Qingdao, company sets up a more professional international trade team
- In 2022, in order to meet the needs of the company's development, the international trade team moved to Fuzhou South Road, New World Building, Qingdao, and obtained the hazardous chemicals business license of Qingdao City.

Upstream Supplier

Wanhua Chemical Group Co., Ltd. is among the global leading suppliers of chemical products. It has built up six key production complexes in Yantai, Ningbo, Sichuan, Fujian, and Zhuhai in China, and Hungary. Wanhua has established R&D centers in China, as well as in North America and Europe, set up subsidiaries and offices in more than ten countries and regions including Europe, the United States, and Japan.

Befar Group Co., Ltd. was founded in 1968, it has developed into a comprehensive chemical enterprise group with prominent main business and complete industrial chain. The total assets of Befar Group Co., Ltd. are 26 billion yuan, with four bases, industries covering salt chemical, petrochemical, fine chemical, thermal power, and other fields, products covering more than 100 countries and regions around the world.

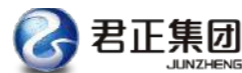

Xinjiang Tianye Co., Ltd. is a large state-owned enterprise under the Xinjiang Production and Construction Corps Agricultural Division 8, founded in June 1996, now has total assets of more than 3 billion and net assets of 1.2 billion. Its holding company, Xinjiang Tianye Joint Stock Company, is the first industrial enterprise listed in Xinjiang Corps. The total share capital has reached 226.8 million shares, and the net assets have reached 1.2 billion yuan.

Qinghai Salt Lake Industry Co., Ltd. is a provincial large listed state-owned enterprise managed by the Qinghai Provincial State-owned assets supervision and Administration Commission, mainly engaged in the manufacture of chemical raw materials and chemical products. The company has a registered capital of 2.786 billion yuan, total assets of 83.9 billion yuan, nearly 18000 registered employees and 10 leaders of natural science and engineering technology in Qinghai Province.

Shandong Hualu Hengsheng Group Co., Ltd. is the main business company of Hualu Group's chemical industry sector, with 5 holding subsidiaries, total assets of 33 billion yuan and 5,500 employees. Its products involve more than 40 products in 5 major sectors, including chemical fertilizers, polyurethane raw materials, carbonylated derivatives, new chemical materials and new energy materials, etc.

Junzheng Group is a state-level high-tech enterprise in response to the national western development and support for the construction of the western region. Relying on local and surrounding resource advantages, Junzheng Group takes the "coal-electric-chemical" industrial chain as the leading direction to conduct comprehensive development and utilization of resources and develop circular economy.

Established on June 8, 2011, China Coal Ordos Energy & Chemical Company Limited is a wholly-owned subsidiary of China Coal Group. The Tuk fertilizer project constructed and operated by the company is the first project put into operation by China Coal Group to build a Mongolia-Shaanxi energy chemical base and construct a world-class coal chemical enterprise.

Huarong Chemical Co., Ltd. (hereinafter referred to as "the company") is an advanced enterprise committed to the green recycling and comprehensive utilization of high-quality potassium hydroxide, belonging to the chemical sector of new hope group. The main products include high-quality potassium hydroxide, hydrochloric acid, sodium hypochlorite and liquid chlorine. The sales volume of high-quality flake potassium hydroxide in 2019 ranks second in China.

Located in Jiangbei New District, Nanjing, covering an area of 3.79 square kilometers. The company is now a wholly-owned subsidiary of Sinopec, an important base for inorganic chemical, organic chemical, fine chemical, chemical machinery, chemical research and development, and a national enterprise technology center. It has 28 sets of production units for coal chemical, benzene chemical and fine chemical, with a total capacity of 3.1 million tons.

LUXI Group is a state-owned enterprise. In 2020, LUXI Group joined Sinochem. With a total asset of 32.1 billion RMB and over 12,000 employees, LUXI Group is involved in many industrial fields such as coal chemical, fluorine and silicon chemical, new material, fertilizer, R&D etc. It has established the technical research organization such as state-level technical center, Academician workstation, Postdoctoral Workstation, European R&D center, Provincial Engineering Laboratory.

Main Client

Shandong Xingyu Gloves Co., Ltd, founded in 1992, covers a total area of more than 1,800 acres and employs more than 5,000 people, which is the larger protective gloves production base in China. With four major industries: safety protection gloves, medical protection, new materials and synthetic latex, it is a modern industrial group integrating R&D, design, production, marketing and service.

Himile Mechanical Science and Technology (Shandong) Co., Ltd., Founded in 1995, it is located in the open and developing Jiaodong Peninsula. The company mainly develops four major products, such as tire molds, tire mold special CNC machine tools, HVAC processing machinery and natural rubber processing equipment.

Intco Medical Technology Co., Ltd (Intco Medical) is a high-tech manufacturing company dedicated to the R&D, production and marketing of medical equipment consumables, a leading global provider of medical protective supplies and the largest manufacturer of disposable gloves in China, one of the top 500 Chinese brands and an AAA-rated enterprise in China. At present, the company has more than 10,000 employees, and the company and its subsidiaries have 119 patents.

Jiangsu Aidefu Latex Products Co., Ltd was founded in December 1994 has grown into one of the large latex foam products suppliers in Asia. It has two production bases, namely Jiangsu Aidefu factory and Anhui Aidefu factory, covering a total area of about 160,000 square meters. There are 15 production lines for latex mattresses and 3 production lines for latex pillows. The production line is designed to produce 31 million square meters of latex mattresses and 1.92 million latex pillows.

Ansell, a globally renowned company with a long history founded in 1905, is a leading global provider of security and protection products and services. Ansell has manufacturing facilities in 17 locations in Asia, the USA, Mexico, Sri Lanka and the UK.

Shandong Dengsheng Safety Products Co., Ltd was founded in 1998, is one of the leading enterprises in China's labor protection industry, is a professional production of latex, nitrile, PVC, PU and other kinds of immersion gloves, the current daily output of 25,000 dozen, the annual output value of 360 million yuan, production of latex wrinkle, latex frosted, latex foam, nitrile glossy, nitrile frosted etc.

Nantong Henghui (Nantong) Gloves Co., Ltd. was officially established in Jiangsu Province. The company currently covers an area of 100,000 square meters, with a production plant of more than 60,000 square meters, 25 automatic production lines of various types, and more than 2,600 glove looms. There are about 1000 employees. Whether from production scale to technology development, are the leaders in China.

Sailun has established modern tire manufacturing plants in Qingdao, Dongying, Shenyang and Vietnam, and set up sales networks and logistics centers in Canada, Germany and other regions to service markets around the globe. With total manufacturing capabilities of more than 26.6 million TBR tires, 88 million PCR tires and 310,000 tons of OTR tires in a year, Sailun sells its products in more than 180 countries and regions across Europe, Americas, Asia and Africa.

Doublestar was rated as the model enterprise of the whole industrial chain of "Brand Cultivation", "Technology Innovation", "Quality Benchmark", "Intelligent Manufacturing", "Green Manufacturing" and "Service Transformation", which is the only one to obtain the four national honors authorized by Chinese Ministry of Industry and Information Technology. It is known as the "leader of Chinese tire intelligent manufacturing" and "National Advanced Productivity Model Enterprise".

Aeolus is a large listed tyre company held by China Sinochem Holdings Limited, one of the world's top 500 companies. The company mainly produces more than 1,000 varieties of truck and construction machinery tyres of various brands such as "Fengshen", "Wind" and "Henan", which are sold well in more than 140 countries and regions worldwide, and regions around the world. The company has been awarded as an excellent supplier by Dongfeng Commercial Vehicle Company.
