

**ECOSOLAR SOLUTIONS**

*Bringing Circularity to Solar Energy*

# RECYCLING SOLAR PANELS

Recovering crucial materials from solar panels, such as glass, aluminum, silicon, and precious metals.

## **SECOND LIFE**

Repair and Reuse  
Solar Panels

## **SUSTAINABLE**

Reduce CO2  
Save Energy  
Reduce landfill  
Save Water

## **CIRCULAR**

Using regained materials for  
new panels

## Circular Supply Chain Solutions THAILAND

# DEVELOPING CIRCULAR SUPPLY CHAINS

Creating, Building, and Being Fully  
Equipped to Implement a Scalable and  
Truly Circular Supply Chain.

This approach focuses on the entire  
product rather than just selective  
aspects.

### DESIGN

Ensure full  
sustainable  
design based on  
holistic approach

### DEVELOP

Getting all the  
elements ready  
to implement

### CIRCULAR

Using regained  
materials for  
new panels
