

Resister

Antiabrasion sheet for mining industry

Applications

Designed to use in wet and dry areas such as mining industry | Ripes chutes | Tank liners | Inside housing gaskets.

Features & Benefits

- Made with blend of rubber including pure natural rubber to provide outstanding abrasion resilience
- Excellent tensile strength
- High tear resistance
- Excellent load bearing characteristics
- High flexibility and recovery

Technical Dimensions

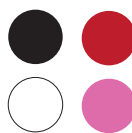

Thickness: 1mm-12mm / Width: 1.4m / Length : Customize

Method of manufacture

Rotational Curing process

Colour

can be Customized
